Introduction

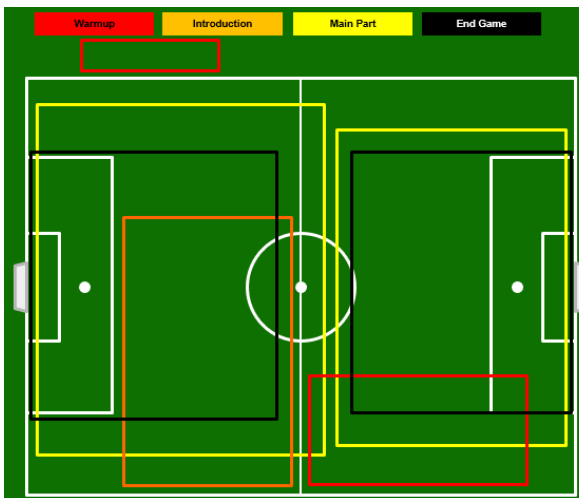

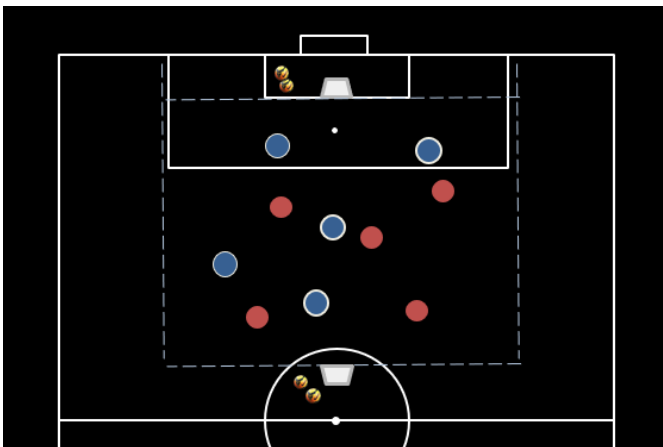

Rules/explanation	Coaching messages
2 teams of 11. 2 squares setup, 7v4 in each. Rotate often. Start with the 4v2, when ball is won or goes out of square it becomes 7v4. 8 is the magic number. If the 4 get 8 passes, a new pair defends. If the 7 get 8 then it's a goal.	How quickly will we react. BP>BPO, can we close the ball quickly. BPO>BP, can we slow the tempo, and build passes. Are we supporting, or just tired standing behind people.
Progressions	Coaching points
Change the magic number if it's too hard or too easy.

Main part

Rules/explanation	Tasks
2 teams. 6v6 or 7v7. 1-2-1-3 for attackers. 4-1-2 for defenders. Attacking team v defending team. Key is +1 at back for defenders, so attackers have to jump to make 1v1 everywhere. Restarts happen from anywhere. Attackers dont allow CBs to have open-ball or time and space.	Focus is on attackers pressing decisions. Need the 10 to jump in game moments and for goal-kicks. CBs can't have time to play a pass or drive.
